WHAT IS NYC DISCRETIONARY EXPENSE FUNDING?

Each year, Council Members allocate discretionary funds to not-for-profit organizations to meet local needs and fill gaps in City agency services. Thus, discretionary spending is a critical tool in meeting the needs of our communities.

Discretionary Funding Policies and Procedures

New York City Council

Unlike competitively awarded Agency contracts, discretionary funding contracts are awarded for a single fiscal year.

Member Local Initiatives: Each Member and Borough Delegation receives and allocates an annual amount of discretionary funds, known as “local initiatives,” to meet the needs of their district, and Borough. Various factors including local needs, the Member’s request, and other considerations determine the allocation amount.

City Council Local Initiatives: Organizations may apply for funding directly to the Speaker, or Members may request that the Speaker fund an organization whose scope of services exceeds their individual ability to fund or serves a larger geographical area. This is often referred to as the “Speaker’s list.”

Member Aging Discretionary Funds: Each Member receives an annual amount to fund senior services in his or her district through the Department for the Aging.

Member Youth Discretionary Funds: Each Member receives an annual amount for the provision of services for youth or community development through the Department of Youth and Community Development. For youth programs, services may only be provided outside of school hours.

Member Community Safety and Victim Services Initiative: Council Members receive an annual amount to provide programming and services that promote community/public safety and awareness. As well as to promote community fellowship, civic engagement and improved relations between law enforcement and the neighborhood.

Citywide Initiatives: The Council may also initiate programs to address community needs that it feels are not adequately met by existing agency programming, or to extend the reach of agency programs to underserved communities or populations. In most cases, the Council provides funding to specific not-for-profit providers. These initiatives are usually citywide in scope, although they may focus on high-need communities or populations. The method of allocating funding varies by initiative and is at the discretion of the Council.
